

## RR Map GM Senegal & The Gambia v.2.3

This map is intended for 3-4 players. With 3 players, all start in Dakar; with 4 players, 2 start in Dakar, 1 in Banjul and 1 in Saint Louis. Players may build into a foreign country hex, but not further, with the exception of The Gambia (country and towns shown in different colours for visibility) which is part of this map for play.

The Gambia river costs + 4 to cross in The Gambia and + 3 in Senegal. (e.g. a build from T12 to S12 would cost 5; a build from U21 to U22 would cost 4). The Senegambia Bridge at Farafenni costs a total of 6 to build (3 and 3) and must be built over 2 rounds. Other players must pay +3 to use this bridge once built.

The Special runs are

1. Mauritania
2. Mali
3. Guinea
4. Guinea-Bissau
5. Minerals (Fe, Au, Zr, P)
6. Town on the Gambia River.

This map was designed by Jim Reader in 2024 with input from Richard Smith, Bob Gingell and Tom Howell. Railway Rivals is a game by David Watts, published by Rosterne Games
